

' DREAMING THE RADAR FUTURE '

CALL FOR SPECIAL SESSIONS

Conference Location

In 2023, the International Radar Conference will take place in Sydney, a unique mix of beauty and culture to inspire the future of radar systems. To this purpose, Special Sessions are an essential feature of the conference technical program as they can truly reflect the current state-of-the-art and future perspectives of well-defined topics.

KEY DATES	
Special Session proposals deadline	Wednesday 1 February 2023
Acceptance notification	Wednesday 1 March 2023
Paper submissions due	Monday 1 May 2023
Conference dates	Monday 6 – Friday 10 November 2023

Guidelines

- Each session can have up to two organisers and they cannot be co-authors of more than one paper each.
- Speakers are required to attend the Conference in person.
- All papers submitted to a Special Session will undergo the normal peer-review process.
- Must include contributors from different organisations/affiliations.
- Special sessions with contributors from multiple nations are preferred.
- One paper time slot may be converted to a panel discussion (optional).
- There is a strict limit of 5 papers per session. Therefore, should more than 5 papers be accepted, some of the contributors will be moved to regular sessions.

Submissions must be electronically submitted, including the completed form to the Conference Organisers at radar2023@arinex.com.au no later than 1 February 2023.

Special Session Co-chairs

Piotr Samczynski, Fabiola Colone, Ravi Adve, Willie Nell
